Tip 5: Organize and pack the schoolbag every day.

Tip 6: Eat and drink enough healthy food and beverages at school.

Tip 7: Vorhandene Ganztagsangebote nutzen

Tip 8: Practice for school at home in peace.

Tip 9: Eat dinner together and talk about the day.

Tip 10: Read to your child before she/he falls asleep.

We make sure Tim takes his sports gear with him when he has PE class: sport clothing, sport shoes. Every day we help him organize and pack his bag for school.

We signed Tim up for lunch at school and pay for it. Also we pack him a healthy snack and a drink for the long break.

Tim is enjoying what the full-time programme has to offer – and we know that he is taken good care of.

At our full-time school I attend the craft group. At the moment we’re building a kite. Will it be able to fly?

We are happy about Tim’s progress in reading and writing. He likes practising at home. That is why he has his own desk. We ask about his homework every day and let him explain to us what he did.

It’s important to us that the family eats dinner together. That way, everyone can talk about their day – and we can ask Tim about his day at school.

We read to Tim every evening. He enjoys it – and so do we.

We drew pictures in class. Now our teacher is looking at them and gives us advice on how we can improve them further.

Hello. We are Tim’s parents. We will tell you how we support Tim during his school day.

Tip 1: Get up in time and have breakfast together

We wake Tim up in time so we can have breakfast together.

Tip 2: Walk to school by yourself

I like muesli for breakfast.

Tip 3: Make sure to be at school before class starts

We send Tim to school early enough so he gets there on time.

The bell will soon ring and school is about to start. We are in school on time, we are not late.

My journey to school is not long. I walk to school, sometimes together with other children from my class.

We all want the best for him or her. And, with good communication between everyone involved, things should work out fine.

I wish your child an excellent start at school!

Julia Willie Hamburg
Lower Saxony Minister for Education

To parents, guardians and carers,

So your child is starting school! You may be asking yourself: What’s going to change for us?

This easy-to-follow leaflet will help answer this question by looking at daily school routines. A day at school is more than just a couple of classes. Pupils need the right support system in this new situation. This includes encouragement with getting up on time in the morning, going to bed early in the evening, and healthy meals both at home and at school. This leaflet suggests ways you can support your child.

We all want the best for him or her. And, with good communication between everyone involved, things should work out fine.

I wish your child an excellent start at school!
